

Action D and E2:

- K12 presentation at Kunststoff expo 2016
- Networking with EU projects and external group

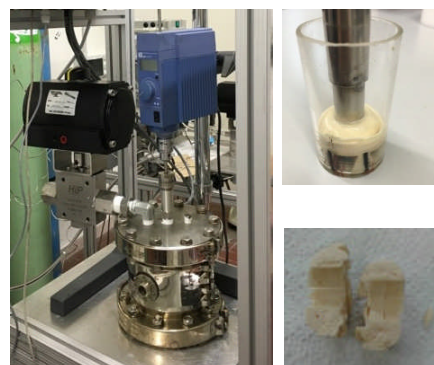

K12 micro-cellular foam

Action B2: K12 Pilot plant has been installed at Afros laboratory, in use for trials with chemistry developed by Dow.

Action B3:

Phase 1, realization of lab prototypes: activities on going at Dow laboratories in collaboration with CNR-university.

Phase 2, realization of 2D and 3D molded prototypes: activities are on going at Afros pilot plant; 3D panels have been produced and tested; refrigerator door and mold designs are defined and under construction.

K12 Testing
PU Samples produced with K12 innovative technology
