Expense Provisions

The following provisions apply to your health expense plan.

This section describes cost sharing features, benefit maximums and other important provisions that apply to your Plan. The specific cost sharing features and the applicable dollar amounts or benefit percentages are contained in the attached health expense sections of this *Schedule of Benefits*.

This *Schedule of Benefits* replaces any *Schedule of Benefits* previously in effect under your plan of health benefits.

KEEP THIS SCHEDULE OF BENEFITS WITH YOUR BOOKLET.

Deductible Provisions

Calendar Year Deductible

This is an amount of **covered expenses** incurred each Calendar Year for which no benefits will be paid. The Calendar Year **deductible** applies separately to you and each of your covered dependents. After **covered expenses** reach the Calendar Year **deductible**, the plan will begin to pay benefits for **covered expenses** for the rest of the Calendar Year.

Payment Provisions

Payment Percentage

This is the percentage of your **covered expenses** that the plan pays and the percentage of **covered expenses** that you pay. The percentage that the plan pays is referred to as the "Plan Payment Percentage". Once applicable **deductibles** have been met, your plan will pay a percentage of the **covered expenses**, and you will be responsible for the rest of the costs. The payment percentage may vary by the type of expense. Refer to your *Schedule of Benefits* for payment percentage amounts for each covered benefit.

Maximum Benefit Provisions

Calendar Year Maximum Benefit

The most the plan will pay for covered expenses incurred by any one covered person in a Calendar Year is called the Calendar Year maximum benefit.

General

This Schedule of Benefits replaces any similar Schedule of Benefits previously in effect under your plan of benefits. Requests for coverage other than that to which you are entitled in accordance with this Schedule of Benefits cannot be accepted. This Schedule is part of your Booklet and should be kept with your Booklet.

Preface

Aetna agrees with the Employer to provide administrative services in accordance with the conditions, rights, and privileges as set forth in this *Booklet*. The Employer selects the products and benefit levels under the **Aetna** dental benefits plan.

The *Booklet* describes your rights and obligations, what the **Aetna** dental benefits plan covers, and how benefits are paid for that coverage. It is your responsibility to understand the terms and conditions in this *Booklet*. Your *Booklet* includes the *Schedule of Benefits* and any amendments.

This *Booklet* replaces and supercedes all **Aetna Booklets** describing coverage for the dental benefits plan described in this *Booklet* that you may previously have received.

Coverage for You and Your Dependents

Health Expense Coverage

Benefits are payable for covered health care expenses that are incurred by you or your covered dependents while coverage is in effect. An expense is “incurred” on the day you receive a health care service or supply.

Coverage under this plan is non-occupational. Only **non-occupational injuries** and **non-occupational illnesses** are covered.

Refer to the *What the Plan Covers* section of the *Booklet* for more information about your coverage.

Treatment Outcomes of Covered Services

Aetna is not a provider of health care services and therefore is not responsible for and does not guarantee any results or outcomes of the covered health care services and supplies you receive. Except for Aetna RX Home Delivery LLC, providers of health care services, including hospitals, institutions, facilities or agencies, are independent contractors and are neither agents nor employees of **Aetna** or its affiliates.

Requirements For Coverage

To be covered by the plan, services and supplies must meet all of the following requirements:

1. The service or supply must be covered by the plan. For a service or supply to be covered, it must:
 - Be included as a covered expense in this Booklet;
 - Not be an excluded expense under this Booklet. Refer to the *Exclusions* sections of this Booklet for a list of services and supplies that are excluded;
 - Not exceed the maximums and limitations outlined in this Booklet. Refer to the *What the Plan Covers* section and the *Schedule of Benefits* for information about certain expense limits; and
 - Be obtained in accordance with all the terms, policies and procedures outlined in this Booklet.
2. The service or supply must be provided while coverage is in effect. See the *Who Can Be Covered, How and When to Enroll, When Your Coverage Begins, When Coverage Ends* and *Continuation of Coverage* sections for details on when coverage begins and ends.
3. The service or supply must be **medically necessary**. To meet this requirement, the dental service or supply must be provided by a **physician**, or other health care provider or **dental provider**, exercising prudent clinical judgment, to a patient for the purpose of preventing, evaluating, diagnosing or treating an **illness, injury**, disease or its symptoms. The provision of the service or supply must be:
 - (a) In accordance with generally accepted standards of dental practice;
 - (b) Clinically appropriate, in terms of type, frequency, extent, site and duration, and considered effective for the patient's **illness, injury** or disease; and
 - (c) Not primarily for the convenience of the patient, **physician** or **dental provider** or other health care provider;
 - (d) And not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of that patient's **illness, injury**, or disease.

For these purposes “generally accepted standards of dental practice” means standards that are based on credible scientific evidence published in peer-reviewed dental literature generally recognized by the relevant dental community, or otherwise consistent with **physician** or dental specialty society recommendations and the views of **physicians** or **dentists** practicing in relevant clinical areas and any other relevant factors.

Important Note

- Not every service or supply that fits the definition for **medical necessity** is covered by the plan. Exclusions and limitations apply to certain dental services, supplies and expenses. For example some benefits are limited to a certain number of days, visits or a dollar maximum. Refer to the *What the Plan Covers* section and the *Schedule of Benefits* for the plan limits and maximums.

How Your Aetna Dental Plan Works

Common Terms

What the Plan Covers

Rules that Apply to the Plan

What the Plan Does Not Cover

Understanding Your Aetna Dental Plan

It is important that you have the information and useful resources to help you get the most out of your **Aetna** dental plan. This Booklet explains:

- Definitions you need to know;
- How to access care, including procedures you need to follow;
- What services and supplies are covered and what limits may apply;
- What services and supplies are not covered by the plan;
- How you share the cost of your covered services and supplies; and
- Other important information such as eligibility, **complaints** and **appeals**, termination, continuation of coverage and general administration of the plan.

Important Notes:

Unless otherwise indicated, "you" refers to you and your covered dependents.

This Booklet applies to coverage only and does not restrict your ability to receive covered expenses that are not or might not be **covered expenses** under this dental plan.

Store this Booklet in a safe place for future reference.

Getting Started: Common Terms

Many terms throughout this Booklet are defined in the *Glossary* Section at the back of this document. Defined terms appear in bolded print. Understanding these terms will also help you understand how your plan works and provide you with useful information regarding your coverage.

About the Comprehensive Dental Plan

This dental plan covers a wide range of necessary dental services and supplies. You have the freedom to choose the **dental provider** of your choice.

The comprehensive dental plan begins to pay benefits after you satisfy a **deductible**.

You share the cost of covered services and supplies by paying a portion of certain expenses (your **payment percentage**).

If your **dentist** charges more than the **recognized charge**, you must also pay any expenses above the **recognized charge**.

You must file a claim to receive reimbursement from the plan.

Important Reminder

Refer to the *Schedule of Benefits* for details about any **deductibles, payment percentage** and maximums that apply.

Getting an Advance Claim Review

The purpose of the advance claim review is to determine, in advance, the benefits the plan will pay for proposed services. Knowing ahead of time which services are covered by the plan, and the benefit amount payable, helps you and your **dentist** make informed decisions about the care you are considering.

Important Note

The pre-treatment review process is not a guarantee of benefit payment, but rather an estimate of the amount or scope of benefits to be paid.

When to Get an Advance Claim Review

An advance claim review is recommended whenever a course of dental treatment is likely to cost more than \$300. Ask your **dentist** to write down a full description of the treatment you need, using either an **Aetna** claim form or an ADA approved claim form. Then, before actually treating you, your **dentist** should send the form to **Aetna**. **Aetna** may request supporting x-rays and other diagnostic records. Once all of the information has been gathered, **Aetna** will review the proposed treatment plan and provide you and your **dentist** with a statement outlining the benefits payable by the plan. You and your **dentist** can then decide how to proceed.

The advance claim review is voluntary. It is a service that provides you with information that you and your **dentist** can consider when deciding on a course of treatment. It is not necessary for emergency treatment or routine care such as cleaning teeth or check-ups.

In determining the amount of benefits payable, **Aetna** will take into account alternate procedures, services, or courses of treatment for the dental condition in question in order to accomplish the anticipated result. (See *Benefits When Alternate Procedures Are Available* for more information on alternate dental procedures.)

What is a Course of Dental Treatment?

A course of dental treatment is a planned program of one or more services or supplies. The services or supplies are provided by one or more **dentists** to treat a dental condition that was diagnosed by the attending **dentist** as a result of an oral examination. A course of treatment starts on the date your **dentist** first renders a service to correct or treat the diagnosed dental condition.

What The Plan Covers

Comprehensive Dental Plan

Schedule of Benefits for the Comprehensive Dental Plan

Comprehensive Dental is merely a name of the benefits in this section. The plan does not pay a benefit for all dental care expenses you incur.

Important Reminder

Your dental services and supplies must meet the following rules to be covered by the plan:

- The services and supplies must be **medically necessary**.
- The services and supplies must be covered by the plan.
- You must be covered by the plan when you incur the expense.

Covered expenses include charges made by a **dentist** for the services and supplies that are listed in the dental care schedule as shown in the *Schedule of Benefits*.

The next sentence applies if:

- A charge is made for an unlisted service given for the dental care of a specific condition; and
- The list includes one or more services that, under standard practices, are separately suitable for the dental care of that condition.

In that case, the charge will be considered to have been made for a service in the list that **Aetna** determines would have produced a professionally acceptable result.

Dental Care Schedule

- The dental care schedule is a list of dental expenses that are covered by the plan.

These covered services and supplies are grouped as Type A, Type B or Type C.

Comprehensive Dental Expense Coverage Plan

The following additional dental expenses will be considered **covered expenses** for you and your covered dependent if you have medical coverage and have at least one of the following conditions:

- Pregnancy;
- Coronary artery disease/cardiovascular disease;
- Cerebrovascular disease; or
- Diabetes

Additional Covered Dental Expenses

- One additional prophylaxis (cleaning) per year.
- Scaling and root planing, (4 or more teeth); per quadrant;
- Scaling and root planing (limited to 1-3 teeth); per quadrant;
- Full mouth debridement;
- Periodontal maintenance (one additional treatment per year); and
- Localized delivery of antimicrobial agents. (Not covered for pregnancy)

Payment of Benefits

The additional prophylaxis, the benefit will be payable the same as other prophylaxis under the plan.

The **plan coinsurance** applied to the other covered dental expenses above will be 100%. These additional benefits will not be subject to any frequency limits except as shown above or any Calendar Year maximum.

Aetna will reimburse the provider directly, or you may pay the provider directly and then submit a claim for reimbursement for **covered expenses**.

Important Reminder The **deductible, coinsurance** and maximums that apply to each type of dental care are shown in the *Schedule of Benefits*.

Type A Expenses

Oral exams - 2 times per calendar year.

Prophylaxis, scaling and cleaning of teeth - 2 times per calendar year.

First installation of fixed bridgework to replace one or more natural teeth extracted while the person is covered.

This includes inlays and crowns as abutments.

First installation of removable dentures to replace one or more natural teeth extracted while the person is covered.

This includes adjustments for the 6 month period following the date they were installed.

Replacement of an existing removable denture or fixed bridgework by a new denture, or the adding of teeth to a partial removable denture. But, the "Replacement Rule" below must be met.

Occlusal guards for treatment of bruxism.

Rules and Limits That Apply to the Dental Plan

Several rules apply to the dental plan. Following these rules will help you use the plan to your advantage by avoiding expenses that are not covered by the plan.

Orthodontic Treatment Rule

Orthodontic coverage is only for covered dependent children who are under age 19 on the date active orthodontic treatment begins.

The plan does not cover the following orthodontic services and supplies:

- Replacement of broken appliances;
- Re-treatment of orthodontic cases;
- Changes in treatment necessitated by an **accident**;
- Maxillofacial surgery;
- Myofunctional therapy;
- Treatment of cleft palate;
- Treatment of micrognathia;
- Treatment of macroglossia;
- Lingually placed direct bonded appliances and arch wires (i.e. "invisible braces"); or
- Removable acrylic aligners (i.e. "invisible aligners").

The plan will not cover the charges for an orthodontic procedure if an active appliance for that procedure was installed before you were covered by the plan.

Orthodontic Limitation for Late Enrollees

The plan will not cover the charges for an orthodontic procedure for which an active appliance for that procedure has been installed within the two year-period starting with the date you became covered by the plan. This limit applies only if you do not become enrolled in the plan within 31 days after you first become eligible.

Replacement Rule

Complete dentures, removable partial dentures, fixed partial dentures (bridges) and other prosthetic services are subject to the plan's replacement rule. That means certain replacements of, or additions to, existing dentures or bridges are covered only when you give proof to **Aetna** that:

- While you were covered by the plan, you had a tooth (or teeth) extracted after the existing denture or bridge was installed. As a result, you need to replace or add teeth to your denture or bridge.
- The present complete denture, removable partial denture, fixed partial denture (bridge), or other prosthetic service was installed at least 5 years before its replacement and cannot be made serviceable.
- You had a tooth (or teeth) extracted while you were covered by the plan. Your present denture is an immediate temporary one that replaces that tooth (or teeth). A permanent denture is needed, and the temporary denture cannot be used as a permanent denture. Replacement must occur within 12 months from the date that the temporary denture was installed.

Tooth Missing but Not Replaced Rule

The first installation of complete dentures, removable partial dentures, fixed partial dentures (bridges), and other prosthetic services will be covered if:

- The dentures, bridges or other prosthetic services are needed to replace one or more natural teeth that were removed while you were covered by the plan; and
- The tooth that was removed was not an abutment to a removable or fixed partial denture installed during the prior 5 years. The extraction of a third molar does not qualify. Any such appliance or fixed bridge must include the replacement of an extracted tooth or teeth.

Alternate Treatment Rule

Sometimes there are several ways to treat a dental problem, all of which provide acceptable results. When alternate services or supplies can be used, the plan's coverage will be limited to the cost of the least expensive service or supply that is:

- Customarily used nationwide for treatment, and
- Deemed by the dental profession to be appropriate for treatment of the condition in question. The service or supply must meet broadly accepted standards of dental practice, taking into account your current oral condition.

You should review the differences in the cost of alternate treatment with your **dental provider**. Of course, you and your **dental provider** can still choose the more costly treatment method. You are responsible for any charges in excess of what the plan will cover.

Coverage for Dental Work Begun Before You Are Covered by the Plan

The plan does not cover dental work that began before you were covered by the plan. This means that the following dental work is not covered:

- An appliance, or modification of an appliance, if an impression for it was made before you were covered by the plan;
- A crown, bridge, or cast or processed restoration, if a tooth was prepared for it before you were covered by the plan; or
- Root canal therapy, if the pulp chamber for it was opened before you were covered by the plan.

Coverage for Dental Work Completed After Termination of Coverage

Your dental coverage may end while you or your covered dependent is in the middle of treatment. The plan does not cover dental services that are given after your coverage terminates. There is an exception. The plan will cover the following services if they are ordered while you were covered by the plan, and installed within 30 days after your coverage ends.

- Inlays;
- Onlays;
- Crowns;
- Removable bridges;
- Cast or processed restorations;
- Dentures;
- Fixed partial dentures (bridges); and
- Root canals.

"Ordered" means:

- For a denture: the impressions from which the denture will be made were taken.
- For a root canal: the pulp chamber was opened.

- For any other item: the teeth which will serve as retainers or supports, or the teeth which are being restored:
 - Must have been fully prepared to receive the item; and
 - Impressions have been taken from which the item will be prepared.

Waiting period

The plan has a waiting period for initial and replacement Prosthetics. With respect to the initial and replacement Prosthetics services, your coverage will take effect after two years of continuous coverage under the Plan.

Charges made for the following are not covered except to the extent listed under the *What The Plan Covers* section or by amendment attached to this Booklet.

A source of coverage or reimbursement will be considered available to you even if you waived your right to payment from that source. If you are also covered under a workers' compensation law or similar law, and submit proof that you are not covered for a particular **illness** or **injury** under such law, that **illness** or **injury** will be considered "non-occupational" regardless of cause.

Coordination of Benefits - What Happens When There is More Than One Health Plan

When Coordination of Benefits Applies

Getting Started - Important Terms

Which Plan Pays First

How Coordination of Benefits Works

When Coordination of Benefits Applies

This Coordination of Benefits (COB) provision applies to This Plan when you or your covered dependent has health coverage under more than one plan. “Plan” and “This Plan” are defined herein. The Order of Benefit Determination Rules below determines which plan will pay as the primary plan. The primary plan pays first without regard to the possibility that another plan may cover some expenses. A secondary plan pays after the primary plan and may reduce the benefits it pays so that payments from all group plans do not exceed 100% of the total allowable expense.

Getting Started - Important Terms

When used in this provision, the following words and phrases have the meaning explained herein.

Allowable Expense means a health care service or expense, including, coinsurance and **copayments** and without reduction of any applicable **deductible**, that is covered at least in part by any of the Plans covering the person. When a Plan provides benefits in the form of services (for example an HMO), the reasonable cash value of each service will be considered an allowable expense and a benefit paid. An expense or service that is not covered by any of the Plans is not an allowable expense. Any expense that a health care provider by law or in accordance with a contractual agreement is prohibited from charging a covered person is not an allowable expense. The following are examples of expenses and services that are not allowable expenses:

1. If a covered person is confined in a private **hospital** room, the difference between the cost of a semi-private room in the **hospital** and the private room is not an allowable expense. This does not apply if one of the Plans provides coverage for a private room.
2. If a person is covered by 2 or more Plans that compute their benefit payments on the basis of reasonable or **recognized charges**, any amount in excess of the highest of the reasonable or **recognized charges** for a specific benefit is not an allowable expense.
3. If a person is covered by 2 or more Plans that provide benefits or services on the basis of negotiated charges, an amount in excess of the highest of the negotiated charges is not an allowable expense.
4. The amount a benefit is reduced or not reimbursed by the primary Plan because a covered person does not comply with the Plan provisions is not an allowable expense. Examples of these provisions are second surgical opinions, precertification of admissions, and preferred provider arrangements.
5. If all Plans covering a person are high deductible Plans and the person intends to contribute to a health savings account established in accordance with section 223 of the Internal Revenue Code of 1986, the primary high deductible Plan’s deductible is not an allowable expense, except as to any health expense that may not be subject to the deductible as described in section 223(c)(2)(C) of the Internal Revenue Code of 1986.

If a person is covered by one Plan that computes its benefit payments on the basis of reasonable or **recognized charges** and another Plan that provides its benefits or services on the basis of negotiated charges, the primary plan's payment arrangements shall be the allowable expense for all the Plans. However, if the secondary plan has a negotiated fee or payment amount different from the primary plan and if the provider contract permits, that negotiated fee will be the allowable expense used by the secondary plan to determine benefits.

When a plan provides benefits in the form of services, the reasonable cash value of each service rendered shall be deemed an allowable expense and a benefit paid.

Closed Panel Plan(s). A plan that provides health benefits to covered persons primarily in the form of services through a panel of providers that have contracted with or are employed by the plan, and that limits or excludes benefits for services provided by other providers, except in cases of emergency or referral by a panel member.

Custodial Parent. A parent awarded custody by a court decree. In the absence of a court decree, it is the parent with whom the child resides more than one half of the calendar year without regard to any temporary visitation.

Plan. Any Plan providing benefits or services by reason of health care or treatment, which benefits or services are provided by one of the following:

- Group or nongroup, blanket, or franchise health insurance policies issued by insurers, including health care service contractors;
- Other prepaid coverage under service Plan contracts, or under group or individual practice;
- Uninsured arrangements of group or group-type coverage;
- Labor-management trustee Plans, labor organization plans, employer organization Plans, or employee benefit organization Plans;
- Medical benefits coverage in a group, group-type, and individual automobile "no-fault" and traditional automobile "fault" type contracts;
- Medicare or other governmental benefits;
- Other group-type contracts. Group type contracts are those which are not available to the general public and can be obtained and maintained only because membership in or connection with a particular organization or group.

If the Plan includes medical, prescription drug, dental, vision and hearing coverage, those coverages will be considered separate plans. For example, Medical coverage will be coordinated with other Medical plans, and dental coverage will be coordinated with other dental plans.

This Plan is any part of the contract that provides benefits for health care expenses.

Primary Plan/Secondary Plan. The order of benefit determination rules state whether This Plan is a Primary Plan or Secondary Plan as to another Plan covering the person.

When This Plan is a primary Plan, its benefits are determined before those of the other Plan and without considering the other Plan's benefits.

When This Plan is a Secondary Plan, its benefits are determined after those of the other Plan and may be reduced because of the other Plan's benefits.

When there are more than two Plans covering the person, this Plan may be a Primary Plan as to one or more other Plans, and may be a Secondary Plan as to a different Plan or Plans.

Which Plan Pays First

When two or more **plans** pay benefits, the rules for determining the order of payment are as follows:

- The primary plan pays or provides its benefits as if the secondary plan or plans did not exist.
- A plan that does not contain a coordination of benefits provision that is consistent with this provision is always primary. There is one exception: coverage that is obtained by virtue of membership in a group that is designed to supplement a part of a basic package of benefits may provide that the supplementary coverage shall be excess to any other parts of the plan provided by the contract holder. Examples of these types of situations are major medical coverages that are superimposed over base plan **hospital** and surgical benefits, and insurance type coverages that are written in connection with a closed panel plan to provide out-of-network benefits.
- A plan may consider the benefits paid or provided by another plan in determining its benefits only when it is secondary to that other plan.
- The first of the following rules that describes which plan pays its benefits before another plan is the rule to use:
 1. Non-Dependent or Dependent. The plan that covers the person other than as a dependent, for example as an employee, member, subscriber or retiree is primary and the plan that covers the person as a dependent is secondary. However, if the person is a Medicare beneficiary and, as a result of federal law, Medicare is secondary to the plan covering the person as a dependent; and primary to the plan covering the person as other than a dependent (e.g. a retired employee); then the order of benefits between the two plans is reversed so that the plan covering the person as an employee, member, subscriber or retiree is secondary and the other plan is primary.
 2. Child Covered Under More than One Plan. The order of benefits when a child is covered by more than one **plan** is:
 - A. The primary plan is the plan of the parent whose birthday is earlier in the year if:
 - i. The parents are married or living together whether or not married;
 - ii. A court decree awards joint custody without specifying that one party has the responsibility to provide health care coverage or if the decree states that both parents are responsible for health coverage. If both parents have the same birthday, the plan that covered either of the parents longer is primary.
 - B. If the specific terms of a court decree state that one of the parents is responsible for the child's health care expenses or health care coverage and the plan of that parent has actual knowledge of those terms, that plan is primary. If the parent with responsibility has no health coverage for the dependent child's health care expenses, but that parent's spouse does, the plan of the parent's spouse is the primary plan.
 - C. If the parents are separated or divorced or are not living together whether or not they have ever been married and there is no court decree allocating responsibility for health coverage, the order of benefits is:
 - The plan of the **custodial parent**;
 - The plan of the spouse of the **custodial parent**;
 - The plan of the **noncustodial parent**; and then
 - The plan of the spouse of the **noncustodial parent**.
- 3. Active Employee or Retired or Laid off Employee. The plan that covers a person as an employee who is neither laid off nor retired or as a dependent of an active employee, is the primary plan. The plan covering that same person as a retired or laid off employee or as a dependent of a retired or laid off employee is the secondary plan. If the other plan does not have this rule, and if, as a result, the plans do not agree on the

For a dependent child covered under more than one plan of individuals who are not the parents of the child, the order of benefits should be determined as outlined above as if the individuals were the parents.

order of benefits, this rule is ignored. This rule will not apply if the Non-Dependent or Dependent rules above determine the order of benefits.

4. Continuation Coverage. If a person whose coverage is provided under a right of continuation provided by federal or state law also is covered under another plan, the plan covering the person as an employee, member, subscriber or retiree (or as that person's dependent) is primary, and the continuation coverage is secondary. If the other plan does not have this rule, and if, as a result, the plans do not agree on the order of benefits, this rule is ignored. This rule will not apply if the Non-Dependent or Dependent rules above determine the order of benefits.
5. Longer or Shorter Length of Coverage. The plan that covered the person as an employee, member, subscriber longer is primary.
6. If the preceding rules do not determine the primary plan, the allowable expenses shall be shared equally between the plans meeting the definition of plan under this provision. In addition, this plan will not pay more than it would have paid had it been primary.

How Coordination of Benefits Works

In determining the amount to be paid when this plan is secondary on a claim, the secondary plan will calculate the benefits that it would have paid on the claim in the absence of other health insurance coverage and apply that amount to any allowable expense under this plan that was unpaid by the primary plan. The amount will be reduced so that when combined with the amount paid by the primary plan, the total benefits paid or provided by all plans for the claim do not exceed 100 percent of the total allowable expense.

In addition, a secondary plan will credit to its plan deductible any amounts that would have been credited in the absence of other coverage.

Under the COB provision of this plan, the amount normally reimbursed for covered benefits or expenses under this plan is reduced to take into account payments made by other plans. The general rule is that the benefits otherwise payable under this plan for all covered benefits or expenses will be reduced by all other plan benefits payable for those expenses. When the COB rules of this plan and another plan both agree that this plan determines its benefits before such other plan, the benefits of the other plan will be ignored in applying the general rule above to the claim involved. Such reduced amount will be charged against any applicable benefit limit of this coverage.

If a covered person is enrolled in two or more closed panel plans COB generally does not occur with respect to the use of panel providers. However, COB may occur if a person receives emergency services that would have been covered by both plans.

Right To Receive And Release Needed Information

Certain facts about health care coverage and services are needed to apply these COB rules and to determine benefits under this plan and other plans. **Aetna** has the right to release or obtain any information and make or recover any payments it considers necessary in order to administer this provision.

Facility of Payment

Any payment made under another plan may include an amount, which should have been paid under this plan. If so, **Aetna** may pay that amount to the organization, which made that payment. That amount will then be treated as though it were a benefit paid under this plan. **Aetna** will not have to pay that amount again. The term "payment made" means reasonable cash value of the benefits provided in the form of services.

Right of Recovery

If the amount of the payments made by **Aetna** is more than it should have paid under this COB provision, it may recover the excess from one or more of the persons it has paid or for whom it has paid; or any other person or organization that may be responsible for the benefits or services provided for the covered person. The “amount of the payments made” includes the reasonable cash value of any benefits provided in the form of services.

When You Have Medicare Coverage

Effect of Medicare

Effect of Medicare

Health Expense Coverage will be changed for any person while eligible for Medicare.

A person is "eligible for Medicare" if he or she:

- is covered under it;
- is not covered under it because of:
 - having refused it;
 - having dropped it;
 - having failed to make proper request for it.

These are the changes:

- All health expenses covered under this Plan will be reduced by any Medicare benefits available for those expenses. This will be done before the health benefits of this Plan are figured.
- Charges used to satisfy a person's Part B deductible under Medicare will be applied under this Plan in the order received by **Aetna**. Two or more charges received at the same time will be applied starting with the largest first.
- Medicare benefits will be taken into account for any person while he or she is eligible for Medicare. This will be done whether or not he or she is entitled to Medicare benefits.
- Any rule for coordinating "other plan" benefits with those under this Plan will be applied after this Plan's benefits have been figured under the above rules. Allowable Expenses will be reduced by any Medicare benefits available for those expenses.

Coverage will not be changed at any time when your Employer's compliance with federal law requires this Plan's benefits for a person to be figured before benefits are figured under Medicare.

General Provisions

Type of Coverage

Coverage under the plan is **non-occupational**. Only **non-occupational** accidental **injuries** and **non-occupational illnesses** are covered. The plan covers charges made for services and supplies only while the person is covered under the plan.

Physical Examinations

Aetna will have the right and opportunity to examine and evaluate any person who is the basis of any claim at all reasonable times while a claim is pending or under review. This will be done at no cost to you.

Legal Action

No legal action can be brought to recover payment under any benefit after 3 years from the deadline for filing claims.

Additional Provisions

The following additional provisions apply to your coverage:

- This Booklet applies to coverage only, and does not restrict your ability to receive health care services that are not, or might not be, covered.
- You cannot receive multiple coverage under the plan because you are connected with more than one employer.
- In the event of a misstatement of any fact affecting your coverage under the plan, the true facts will be used to determine the coverage in force.
- This document describes the main features of the plan. If you have any questions about the terms of the **Aetna** medical benefits plan or about the proper payment of benefits, contact your employer or **Aetna**.
- The **Aetna** medical benefits plan may be changed or discontinued with respect to your coverage.

Assignments

Coverage and your rights under this **Aetna** medical benefits plan may not be assigned. A direction to pay a provider is not an assignment of any right under this plan or of any legal or equitable right to institute any court proceeding.

Misstatements

Aetna's failure to implement or insist upon compliance with any provision of this **Aetna** medical benefits plan at any given time or times, shall not constitute a waiver of **Aetna's** right to implement or insist upon compliance with that provision at any other time or times.

Fraudulent misstatements in connection with any claim or application for coverage may result in termination of all coverage under this **Aetna** medical benefits plan.

Recovery of Overpayments

Health Coverage

If a benefit payment is made by the Plan, to or on your behalf, which exceeds the benefit amount that you are entitled to receive, the Plan has the right:

- To require the return of the overpayment; or
- To reduce by the amount of the overpayment, any future benefit payment made to or on behalf of that person or another person in his or her family.

Such right does not affect any other right of recovery the Plan may have with respect to such overpayment.

Reporting of Claims

A claim must be submitted to **Aetna** in writing. It must give proof of the nature and extent of the loss. Your employer has claim forms.

All claims should be reported promptly. The deadline for filing a claim is 90 days after the date of the loss.

If, through no fault of your own, you are not able to meet the deadline for filing claim, your claim will still be accepted if you file as soon as possible. Unless you are legally incapacitated, late claims for health benefits will not be covered if they are filed later than the end of the calendar year following the year the eligible expenses were incurred.

Payment of Benefits

Benefits will be paid as soon as the necessary proof to support the claim is received. Written proof must be provided for all benefits.

All covered health benefits are payable to you. However, **Aetna** has the right to pay any health benefits to the service provider. This will be done unless you have told **Aetna** otherwise by the time you file the claim.

The Plan may pay up to \$1,000 of any other benefit to any of your relatives whom it believes fairly entitled to it. This can be done if the benefit is payable to you and you are a minor or not able to give a valid release.

Records of Expenses

Keep complete records of the expenses of each person. They will be required when a claim is made.

Very important are:

- Names of **dentists** who furnish services.
- Dates expenses are incurred.
- Copies of all bills and receipts.

Effect of Benefits Under Other Plans

Effect of An Health Maintenance Organization Plan (HMO Plan) On Coverage

If you are in an eligible class and have chosen dental coverage under an HMO Plan offered by your employer, you will be excluded from dental expense coverage on the date of your coverage under such HMO Plan.

If you are in an eligible class and are covered under an HMO Plan providing dental coverage, you can choose to change to coverage for yourself and your covered dependents under this plan. If you:

- Live in an HMO Plan enrollment area and choose to change dental coverage during an open enrollment period, coverage will take effect on the group contract anniversary date after the open enrollment period. There will be no rules for waiting periods or preexisting conditions.
- Live in an HMO Plan enrollment area and choose to change dental coverage when there is not an open enrollment period, coverage will take effect only if and when **Aetna** gives its written consent.
- Move from an HMO Plan enrollment area or if the HMO discontinues and you choose to change dental coverage within 31 days of the move or the discontinuance, coverage will take effect on the date you elect such coverage. There will be no restrictions for waiting periods or preexisting conditions. If you choose to change coverage after 31 days, coverage will take effect only if and when **Aetna** gives its written consent.

No benefits will be paid for any charges for services rendered or supplies furnished under an HMO Plan.

Discount Programs

Discount Arrangements

From time to time, we may offer, provide, or arrange for discount arrangements or special rates from certain service providers such as pharmacies, optometrists, **dentists**, alternative medicine, wellness and healthy living providers to you under this plan. Some of these arrangements may be made available through third parties who may make payments to **Aetna** in exchange for making these services available.

The third party service providers are independent contractors and are solely responsible to you for the provision of any such goods and/or services. We reserve the right to modify or discontinue such arrangements at any time. These discount arrangements are not insurance. There are no benefits payable to you nor do we compensate providers for services they may render through discount arrangements.

Incentives

In order to encourage you to access certain medical services when deemed appropriate by you in consultation with your **physician** or other service providers, we may, from time to time, offer to waive or reduce a member's **copayment, payment percentage**, and/or a **deductible** otherwise required under the plan or offer coupons or other financial incentives. We have the right to determine the amount and duration of any waiver, reduction, coupon, or financial incentive and to limit the covered persons to whom these arrangements are available.

Any **physician** or **dentist**, acting within the scope of his or her license, who has the legal authority to write an order for a **prescription drug**.

Prescription

An order for the dispensing of a **prescription drug** by a **prescriber**. If it is an oral order, it must be promptly put in writing by the pharmacy.

Prescription Drug

A drug, biological, or compounded **prescription** which, by State and Federal Law, may be dispensed only by **prescription** and which is required to be labeled "Caution: Federal Law prohibits dispensing without prescription." This includes:

- An injectable drug prescribed to be self-administered or administered by any other person except one who is acting within his or her capacity as a paid healthcare professional. Covered injectable drugs include injectable insulin.

R

Recognized Charge

The **covered expense** is only that part of a charge which is the **recognized charge**.

As to dental expenses, the **recognized charge** for each service or supply is the lesser of:

- What the provider bills or submits for that service or supply; and
- The 85th percentile of the Prevailing Charge Rate; for the Geographic Area where the service is furnished.

If **Aetna** has an agreement with a provider (directly, or indirectly through a third party) which sets the rate that **Aetna** will pay for a service or supply, then the **recognized charge** is the rate established in such agreement.

Aetna may also reduce the **recognized charge** by applying **Aetna** Reimbursement Policies. **Aetna** Reimbursement Policies address the appropriate billing of services, taking into account factors that are relevant to the cost of the service such as:

- the duration and complexity of a service;
- whether multiple procedures are billed at the same time, but no additional overhead is required;
- whether an assistant surgeon is involved and necessary for the service;
- if follow up care is included;
- whether there are any other characteristics that may modify or make a particular service unique; and
- when a charge includes more than one claim line, whether any services described by a claim line are part of or incidental to the primary service provided.

Aetna Reimbursement Policies are based on **Aetna's** review of: the policies developed for Medicare; the generally accepted standards of medical and dental practice, which are based on credible scientific evidence published in peer-reviewed literature generally recognized by the relevant medical or dental community or which is otherwise consistent with **physician** or dental specialty society recommendations; and the views of **physicians** and dentists practicing in the relevant clinical areas. **Aetna** uses a commercial software package to administer some of these policies.

As used above, Geographic Area and Prevailing Charge Rates are defined as follows:

- **Geographic Area:** This means an expense area grouping defined by the first three digits of the U.S. Postal Service zip codes. If the volume of charges in a single three digit zip code is sufficient to produce a statistically valid sample, an expense area is made up of a single three digit zip code. If the volume of charges is not sufficient to produce a statistically valid sample, two or more three digit zip codes are grouped to produce a statistically valid sample. When it is necessary to group three digit zip codes, the grouping never crosses state lines.
- **Prevailing Charge Rates:** These are the rates reported by FAIR Health, a nonprofit company, in their database. FAIR Health reviews and, if necessary, changes these rates periodically. **Aetna** updates its systems with these changes within 180 days after receiving them from FAIR Health.

Important Note

Aetna periodically updates its systems with changes made to the Prevailing Charge Rates.

What this means to you is that the **recognized charge** is based on the version of the rates that is in use by **Aetna** on the date that the service or supply was provided.

Additional Information

Aetna's website aetna.com may contain additional information which may help you determine the cost of a service or supply.
