

NORTHERN TRUST ASSET MANAGEMENT

UNITED STATES INVESTABLE MARKET INDEX - NON-LENDING

EQUITY

COMMON

AS OF 2Q24

Investment Objective

The primary objective of the Northern Trust Common US Investable Market Index - Non-Lending is to approximate the risk and return characteristics of the MSCI US Investable Market Index. This Index is commonly used to represent the broad U.S. market.

Investment Approach

To achieve its objective, the Fund employs a replication technique which generally seeks to hold each index constituent in its proportional index weight. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund may not participate in securities lending.

PERFORMANCE DISCLOSURES

Past performance is not a guarantee of future results. Returns for periods greater than one year are annualized and represent geometrically linked rates of return. Performance returns and the principal value of an investment will fluctuate. Performance returns contained herein are subject to revision by Northern Trust Investments, Inc. (NTI). Comparative indices shown are provided as an indication of the performance of a particular segment of the capital markets and/or alternative strategies in general. Index performance returns do not reflect any management fees, transaction costs or expenses. It is not possible to invest directly in any index. Net performance returns are reduced by investment management fees and other expenses relating to the management of the account. Gross performance returns contained herein include reinvestment of dividends and other earnings, transaction costs, and all fees and expenses other than investment management fees, unless indicated otherwise. For additional information on fees, please refer to Part 2a of the Form ADV or consult an NTI representative. To illustrate the effect of the compounding fees, assuming an annual gross return of 8% and an annual investment management fee of 0.20%, a \$10,000,000 account would grow in value over five years to \$14,693,280 before fees and \$14,548,130 after deduction of fees. The fee illustration represents the deduction of the highest applicable management fee. Investment management/advisory fees are described in Northern Trust Investments, Inc. Form ADV Part 2A.

All securities investing and trading activities risk the loss of capital. There can be no assurance that any portfolio investment objectives will be achieved. Risk controls and models do not promise any level of performance or guarantee against loss of principal. No investment strategy or risk management technique can guarantee returns or eliminate risk in any market environment. Any discussion of risk management is intended to describe NTI's efforts to monitor and manage risk but does not imply low risk.

FUND

OVERVIEW

	Fund
Benchmark/Index	MS USA IMI ¹
Total Net Assets	\$1.25 Billion

FEES AND EXPENSES

	Fund
Administrative Fee Cap (%)	0.0300
Total Fees and Expenses (%)	0.0300
Per \$1000 Investment (\$)	0.3000

As set forth in the Fund Declaration for each Fund, NTI has established an Administrative Fee Cap pursuant to which the sum of (i) the fees charged by the Fund's external auditor and (ii) the Custody and Fund Administration Fee paid by the Fund will not exceed a specified percentage of the Fund's assets. NTI may at any time modify or discontinue the above-described Fees and Expenses.

IMPORTANT INFORMATION

For One-on-One Use with Institutional Investors/Financial Professionals Only. Not For Retail Use. The information contained herein is intended for use with current or prospective clients of Northern Trust Investments, Inc. (NTI) or its affiliates. The information is not intended for distribution or use by any person in any jurisdiction where such distribution would be contrary to local law or regulation. NTI and its affiliates may have positions in and may effect transactions in the markets, contracts and related investments different than described in this information. This information is obtained from sources believed to be reliable, and its accuracy and completeness are not guaranteed. Information does not constitute a recommendation of any investment strategy, is not intended as investment advice and does not take into account all the circumstances of each investor.

This factsheet is provided for informational purposes only and is not intended to be, and should not be construed as, an offer, solicitation or recommendation with respect to any transaction and should not be treated as legal advice, investment advice or tax advice. Recipients should not rely upon this information as a substitute for obtaining specific legal or tax advice from their own professional legal or tax advisors. Information is subject to change based on market or other conditions.

The fund is a common trust fund for which Northern Trust Investments, Inc. serves as trustee. The fund is not a mutual fund and is privately offered. Prospectuses are not required and fees and expenses are not available in local publications. Information on fees and expenses can be obtained from Northern Trust Investments, Inc. Principal value and investment return will fluctuate, so that a participant's units when redeemed may be worth more or less than the original investment. Fund participants and potential participants are strongly encouraged to review the fund's declaration of trust and fund declaration for additional information regarding the operation and investment objectives of the fund.

INVESTMENT RISKS

The following Risks are for United States Investable Market Index - Non-Lending:

CAPITALIZATION RISK: Concentrating assets in stocks of one or more capitalizations (small, mid, or large) may be subject to both the specific risks of those capitalizations as well as increased volatility because stocks of specific capitalizations tend to go through cycles of beating or lagging the market as a whole.

EQUITY RISK: Equity securities (stocks) are more volatile and carry more risk than other forms of investments, including investments in high-grade fixed-income securities.

INDEX FUND RISK: The performance of the Fund is expected to be lower than that of the Index because of Fund fees and expenses.

DEFINITIONS

¹The MSCI USA Investable Market Index (IMI) is designed to measure the performance of the large, mid and small cap segments of the US market. With 2,414 constituents, the index covers approximately 99% of the free float-adjusted market capitalization in the US. It is not possible to invest directly in an index.

Tracking Error: Tracking error is a measure of the volatility of the differences in the return between a fund and its benchmark. The smaller the tracking error, the more the fund resembles the benchmark regarding risk and return characteristics.

Beta: Beta is a measure of the volatility, or systematic risk, of a security or a portfolio in comparison to the market as a whole.

Annualized Standard Deviation: Standard deviation is a measure of risk. In this case risk is represented by the fund's price movements up or down over time.

Northern Trust Asset Management is composed of Northern Trust Investments, Inc., Northern Trust Global Investments Limited, Northern Trust Fund Managers (Ireland) Limited, Northern Trust Global Investments Japan, K.K., NT Global Advisors, Inc., 50 South Capital Advisors, LLC, Northern Trust Asset Management Australia Pty Ltd and investment personnel of The Northern Trust Company of Hong Kong Limited and The Northern Trust Company.
