

Louisiana Operations Community Advisory panel (CAP) Meeting
November 12, 2015
Meeting Summary

Attendees:

CAP Members:

Matt Jewell
Darlene Ourso
Dr. Ed Cancienne
Wes Watts
Riley "Pee Wee" Berthelot
Jamie Hanks
Jason Manola

Dow Members:

Eduardo Do Val
Stacey Chiasson
Larry Rushing
Mike Albano
Fran Comeaux

The CAP meeting was held at the Dow Plantation House in Plaquemine.

Eduardo Do Val, Site Director for Louisiana Operations, announced that for the 12th consecutive quarter, Dow has met earnings expectations, and Louisiana Operations continues to significantly contribute to the corporation's positive results. Do Val also shared that Louisiana Operations continues to run safely and reliably, and celebrated setting new production and safety records again so far in 2015.

Do Val discussed the closing of the Dow - Olin deal on October 5 which resulted in Dow divesting its Chlor-Alkali business, and as a result, making Olin the largest tenant on the Louisiana Operations site, owning 15% of the onsite assets. With the site's Gulfstream Growth Project scheduled for startup at the end of 2016 and into 2017, even after the Olin separation, the Louisiana Operations site will grow approximately five percent larger.

Mike Albano, Responsible Care Leader for Louisiana Operations, reviewed environmental, health and safety metrics for the most recent quarter. Albano reminded the CAP members that they receive copies of the quarterly summary of activities conducted pursuant to the cooperative agreement pertaining to implementation of groundwater remediation in the mail. Albano reported that EH&S performance continues to be good. The Special Emphasis program on "Drive to Zero" is ongoing. Drive to Zero means Zero Injuries and Illnesses, Zero Releases, and Zero Process Safety Incidents. This is also known as Triple Zero. The site broke their Triple Zero record on October 19th.

Stacey Chiasson, Public Affairs Leader, announced that Dow will once again open their PTEC scholarship program in early 2016. Applications will be available for high school seniors and mid-career adults. Chiasson discussed the innovative ways BRCC – Westside Campus is communicating with the contract population to encourage them to return to school for increased skill training.

The next CAP meeting will be held in February 2016.
