The CAP meeting was held at the Dow Plantation House in Plaquemine.

Mike Albano, Responsible Care Leader for Louisiana Operations, discussed the power outage that happened on December 2 when all power was lost to the site.

Mike stated that it had been a very busy year for LAO. The Turnaround was completed in late November. This was the largest turnaround in Dow's history. The CAP members were also reminded that they receive copies of the quarterly summary of activities conducted pursuant to the cooperative agreement pertaining to implementation of groundwater remediation in the mail.

Stacey Chiasson, Public Affairs Leader, announced that Dow met earnings in the 3rd quarter for the fourth consecutive year. LAO's assets ran safely in the 3rd quarter with tremendous reliability. Over 1,000 construction workers are on site for the Gulfstream Growth Project.

It was an honor for Dow to host Governor Edwards at LAO last month. He toured the growth projects on site. Governor Edwards spoke with executive leaders about transportation, infrastructure, taxes and growth.

Stacey mentioned that last month Dow hosted Southern University and LSU Engineers in an interview skills, resume writing workshop. The Dow United Way Campaign ended in November raising over \$400,000 this year. LAO is continuing to assist the greater region with flood relief, including assistance to our employees.
